Natural Beauty

CC Cream

GL-160109

PHASE	INGREDIENTS	%WT.
A	Demi-water	43.65
	ICE Silicone (Cetyl alcohol (and) Sodium Polyacrylate (and) Polisorbate 80 (and) Glyceryl Stearate (and) Dimethicone/divinyldimethicone/silsesquioxane Crosspolymer) ¹	7.6
B	Argan Oil	1.9
	Squalane	1.9
C	SeaFerment SA (Pseudo-alteromonas ferment extract (and) salicylic acid (and) citric acid (and) sodium salicylate (and) water) ¹	1.9
	Acetyl hexapeptide-3	1.9
	SkinWhite Herb (Water (and) glycerin (and) alcohol (and) Malva Sylvestris extract (and) Mentha Piperita leaf extract (and) Primula Veris extract (and) Alchemilla Vulgaris extract (and) Veronica Officinalis extract (and) Melissa Officinalis leaf extract (and) Achillea Millefolium extract) ¹	3.8
	Tripeptide-5	2.85
	SkinTight C-Root (Ichorium intybus root oligosaccharides (and) caesalpinia spinosa gum (and) Water (and) Glycerin) ¹	2.85
	Dimethicone/vinyl dimethicone crosspolymer (and) silica	3.8
	Magnesium ascorbyl phosphate	1.9
	Phenoxyethanol	0.75
	Frangrance	0.20
C	Geoparl C Crystal Silk Beige	5.00
	(Fluorphlogopite (and) Titanium Dioxide (and) Iron Oxides)¹	
	Geoparl C Crystal Silk Silver	2.50
	(Fluorphlogopite (and) Titanium Dioxide)¹	
	Geoparl C Crystal Bright Gold	2.50
	(Fluorphlogopite (and) Titanium Dioxide)¹	
	Demi-water	20.00

Procedure

1. Combine ingredients from Phase A in a glass beaker
2. Mix with a stick blender
3. Add Phase B ingredients and blend with stick blender until free of lumps
4. Add Phase C ingredients one by one and stir after each ingredient until uniform
5. Give the cream a good final mix with the stick blender
6. Pre-mix Phase D and stir into Phase ABC
7. Use a syringe to fill the containers
