INCI composition (EU): Aqua. Propylene Glycol. Tabebuia Avellanedae Bark Extract.

► SPECIFICATIONS	
ORGANOLEPTIC CHARACTERISTICS	
Appearance	Limpid liquid
Colour	Orange to red brown
Odour	Characteristic
PHYSICAL-CHEMICAL CHARACTERISTICS	
Plant / Extract ratio	1/5
Density at 20°C	1.040 ± 0.010
Refractive index at 20°C	1.385 ± 0.010
pH (direct)	6.0 ± 1.0
Solubility in water	Soluble
Pesticides	0.2 ppm max.
Heavy metals	0.3 ppm max.
Preservation system	0.9 % Phenoxyethanol 0.1 % Ethylhexylglycerin
IDENTIFICATION OF ACTIVE COMPONENTS	
Tannins	Positive
Flavonoids	Positive
Minerals	Positive
MICROBIAL COUNT	
Total germs	< 100 cfu/ml
Yeast and mould	< 100 cfu/ml
Pathogens	Absence

► **STORAGE**

Keep in the original tightly-closed container, at room temperature (20°C), protected from light, heat, and humidity sources.
